MANUFACTURES OF AIR SEPARATION PRODUCTS:
ANALYSIS OF CONDITION AND PROSPECTS OF PERFECTION

The sixth international seminar on an actual problem of increase of efficiency and safety of air separation products has been carried out in Odessa on October, 3 – 7, 2005. The organizer of a seminar is the Ukrainian Association of Manufacturers of Industrial Gases «УА-СИГМА». The seminar has gathered almost 120 representatives from 80 enterprises from nine states of the world. It has been listen and discussed more than 30 reports. The certificates confirming the improvement of professional skill have been handed to the participants of seminar. It is solved the following seventh seminar on this problem to carry out on October, 2 – 6, 2006 in Odessa.
