

TECHNOLOGY AUDIT AND PRODUCTION RESERVES

No. 5/3(85), 2025

CONTENTS

ECOLOGY AND ENVIRONMENTAL TECHNOLOGY

- 6 Development of a method for rapid ignition detection based on current selective dispersion of hazardous parameters of the gas environment
Igor Tolok, Boris Pospelov, Evgeniy Rybka, Andrii Iatsyshyn, Ihor Morozov, Olekcii Krainiukov, Yuliia Bezuhla, Larysa Prokhorova, Tatiana Lutsenko, Dmytro Morkvin
- 12 Determination of optimal operating modes of the selective catalytic reduction system for marine diesel exhaust gases
Sergii Sagin, Oleksiy Kuropyatnyk
- 23 Assessment of the risk of pollution of the ecosystem and agricultural products in the zone of military conflict
Maryna Samilyk, Tetiana Synenko, Nataliia Bolhova, Bohdan Lukhanin, Nataliia Borozenets

FOOD PRODUCTION TECHNOLOGY

- 29 Assessment of the content of flavonoids in green buckwheat flour
Olha Sereda, Yevheniia Demydova, Olena Koshel, Valeriia Ponomarenko, Oleksandr Voronin, Inha Kuznietsova, Liudmyla Zaichuk
- 35 Optimization of forces in cutting poultry carcasses with disc knives
Larysa Bal-Prylypko, Valentyna Bandura, Marina Serdyuk, Halyna Shlapak, Nadia Novgorodska, Nadiia Zahorko, Iryna Basarab
- 42 Identification of patterns in sugar beet storage conditions depending on enzymatic activity
Ahad Nabiyeu, Afet Gasimova, Ilhama Kazimova, Sevinj Maharramova, Gunash Nasrullayeva, Mehriban Yusifova
- 49 Determining the influence of phytoextracts on the quality formation of bakery products
Oksana Melnyk, Oleksandr Matisov, Andriy Foshchan, Larysa Sharan, Svitlana Omelchenko, Aliona Dikhtyar, Vitaliy Shutuk, Tatyana Marenkova, Larysa Chepurda, Oleksandr Kurakin
- 60 Abstracts and References
- 70 Анотації
