

TECHNOLOGY AUDIT AND PRODUCTION RESERVES

No. 2/1(88), 2026

CONTENTS

- MECHANICAL ENGINEERING TECHNOLOGY**
- 6 Determination of force and energy parameters in impact fracture processes of materials of various strengths and rheology properties
Ivan Nazarenko, Oleg Dedov, Yevhen Mishchuk, Iryna Bernyk, Artur Onyshchenko, Mykola Kuzminets, Valentyn Chernysh, Mykola Nesterenko
- 17 Quantitative assessment of wheat mechanical injury during free fall in transport and processing lines
Ruslan Mirskykh
- 25 Improving the efficiency of fault-finding work during camshaft repairs
Ihor Shepelenko, Artem Krasota, Mykhailo Krasota, Ivan Vasylenko, Andrey Solovuch
- METALLURGICAL TECHNOLOGY**
- 32 Development of a hybrid technological scheme for manufacturing pattern equipment for pump impellers
Pavlo Shelepko, Olha Ponomarenko
- MATERIALS SCIENCE**
- 380 Improvement of the electroslag surfacing technology for the working parts of the soil tillage machines through comprehensive modification of coatings
Ivan Rybalko, Andrii Zakharov, Oleksandr Tihonov
- TECHNOLOGY AND SYSTEM OF POWER SUPPLY**
- 46 Application of ultra-high frequency electromagnetic radiation energy to increase the efficiency of gas preparation processes in hydrate formation conditions
Taras Podoliak, Viktoriia Dmytrenko
- ELECTRICAL ENGINEERING AND INDUSTRIAL ELECTRONICS**
- 55 Improvement of the method for assessing load reactivity based on energy flows within a single voltage period
Dmytro Gapon, Roman Demianenko, Andriy Solodovnyk, Oleksandr Svetelik
- 64 Development a mathematical model of processes inside rf hollow cathode taking viscosity into account in electron dynamics
Shahram Roshanpour
- 70 Development of methods for overcoming self-oscillatory modes in an asynchronous electric drive with a thyristor voltage regulator
Victor Buser, Vladyslav Baranovskyi, Oleksiy Gromovyy, Valeriy Druzhinin, Lubov Melnikova, Andrii Tkachuk, Andrii Romanets, Oleksandr Pidtychenko, Anna Humeniuk, Ilya Kolysnychenko
- 81 Abstracts and References
- 91 Анотації
